01 Left-handed marker lettering

Light 300 + Regular 400 + Bold 700 + Variable / Version 1.003

LeftyNote Beta

Notes in motion

Left-handed marker lettering in Light, Regular and Bold, plus a variable weight font.

Public beta / Light 300 + Regular 400 + Bold 700 + Variable / full specimen

02 Three weights and a variable voice

Light / 300 / 1,803 glyphs

A handwritten idea.

Regular / 400 / 1,803 glyphs

A handwritten idea.

Bold / 700 / 1,803 glyphs

A handwritten idea.

The marker gesture

Rounded strokes, uneven pressure and restrained pen accidents preserve the movement of left-handed writing. LeftyNote suits personal notes, expressive headlines, classroom materials and informal annotations.

Three weights, one variable voice

Light 300, Regular 400 and Bold 700 share the same handwriting vocabulary. The variable font spans 300–700 with Regular 400 as its default. Contextual alternates vary repeated letters and figures; ligatures and stylistic sets offer further gestures.

03 Scale and rhythm 1/3

Light 300 / native spacing

48 px

Write it down before the idea disappears.

34 px

Write it down before the idea disappears.

24 px

Write it down before the idea disappears.

Write it down before the idea disappears. LeftyNote brings a left-handed marker gesture to notes, small observations and expressive text. Light keeps a delicate rhythm; Regular carries everyday notes; Bold gives a thought more emphasis. The variable font follows every weight from 300 to 700.

04 Scale and rhythm 2/3

Regular 400 / native spacing

48 px

Write it down before the idea disappears.

34 px

Write it down before the idea disappears.

24 px

Write it down before the idea disappears.

Write it down before the idea disappears. LeftyNote brings a left-handed marker gesture to notes, small observations and expressive text. Light keeps a delicate rhythm; Regular carries everyday notes; Bold gives a thought more emphasis. The variable font follows every weight from 300 to 700.

05 Scale and rhythm 3/3

Bold 700 / native spacing

48 px

Write it down before the idea disappears.

34 px

Write it down before the idea disappears.

24 px

Write it down before the idea disappears.

Write it down before the idea disappears. LeftyNote brings a left-handed marker gesture to notes, small observations and expressive text. Light keeps a delicate rhythm; Regular carries everyday notes; Bold gives a thought more emphasis. The variable font follows every weight from 300 to 700.

21 A continuous handwritten weight

CFF2 variable font / wght 300–700 / default 400. The following proofs use the variable WOFF2 at four locations.

Weight 300

Keep the gesture.

Weight 400

Keep the gesture.

Weight 500

Keep the gesture.

Weight 700

Keep the gesture.

22 Ideas, accents and notation

Light 300

$\int x^2\,dx \neq 0$

$\alpha + \beta \leq \gamma \cdot \xi\,\psi$

$A \cup B \neq C$

$\angle\,\theta = 90°$

$1/2 + 3/4 = 5/4$

Élève, façade, Ångström.

Regular 400

$\int x^2\,dx \neq 0$

$\alpha + \beta \leq \gamma \cdot \xi\,\psi$

$A \cup B \neq C$

$\angle\,\theta = 90°$

$1/2 + 3/4 = 5/4$

Élève, façade, Ångström.

Bold 700

$\int x^2\,dx \neq 0$

$\alpha + \beta \leq \gamma \cdot \xi\,\psi$

$A \cup B \neq C$

$\angle\,\theta = 90°$

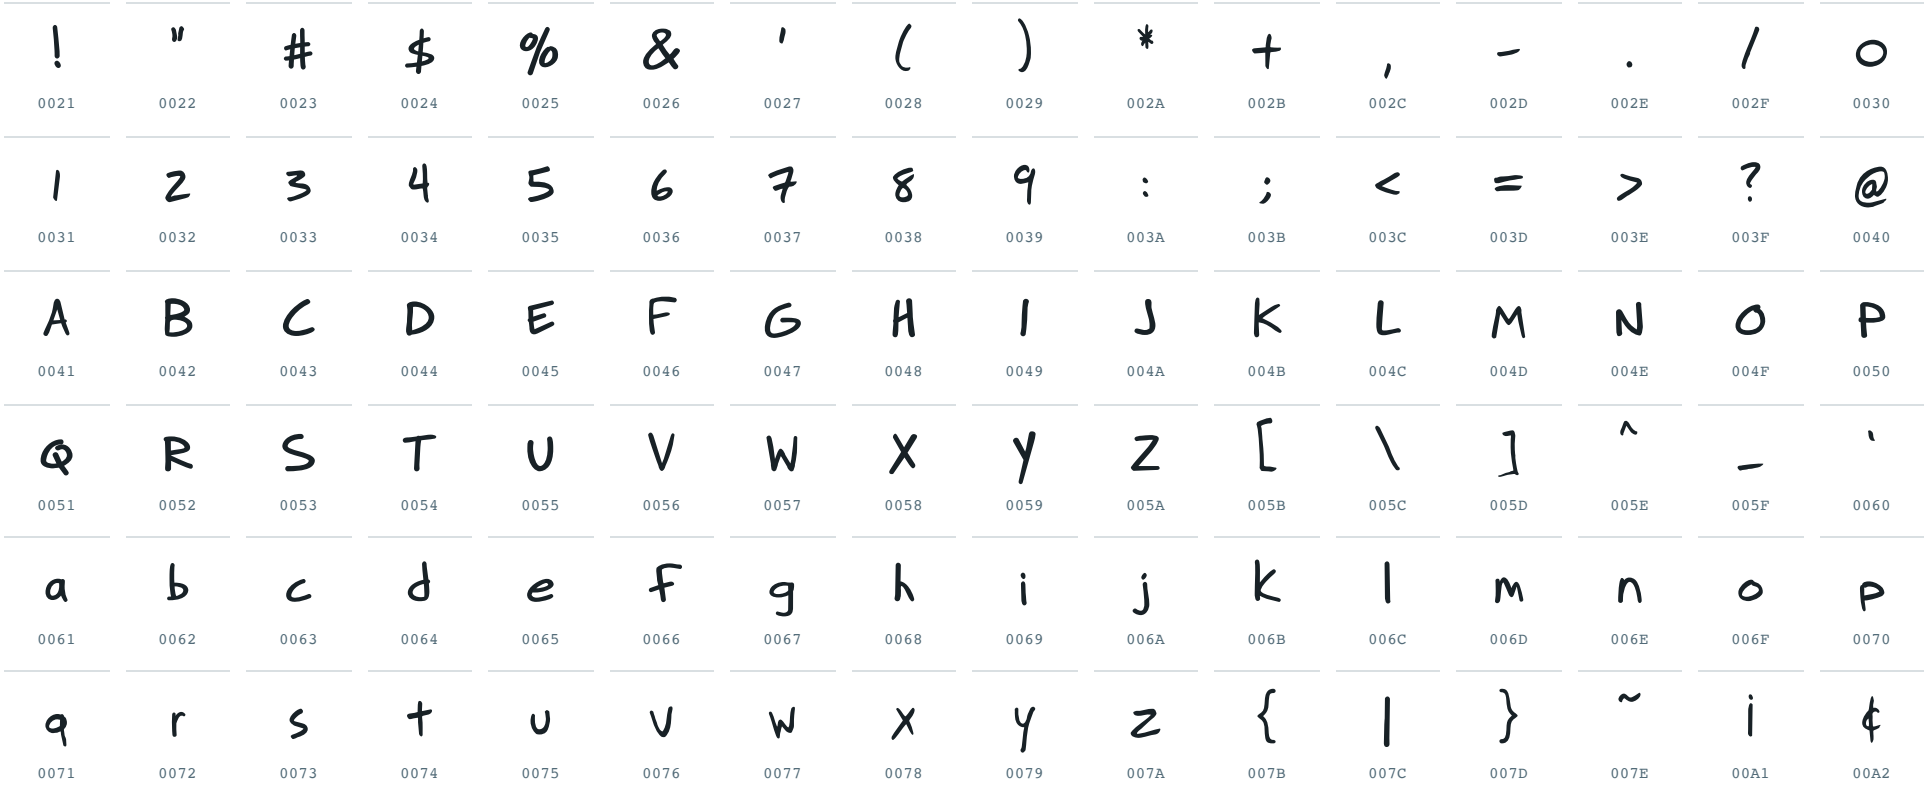
$1/2 + 3/4 = 5/4$

Élève, façade, Ångström.

Selected Greek and mathematical notation. Mathematical signs retain intentional proportional widths. No advanced OpenType MATH layout table or full Greek-language coverage is claimed.

23 Encoded repertoire 1/6

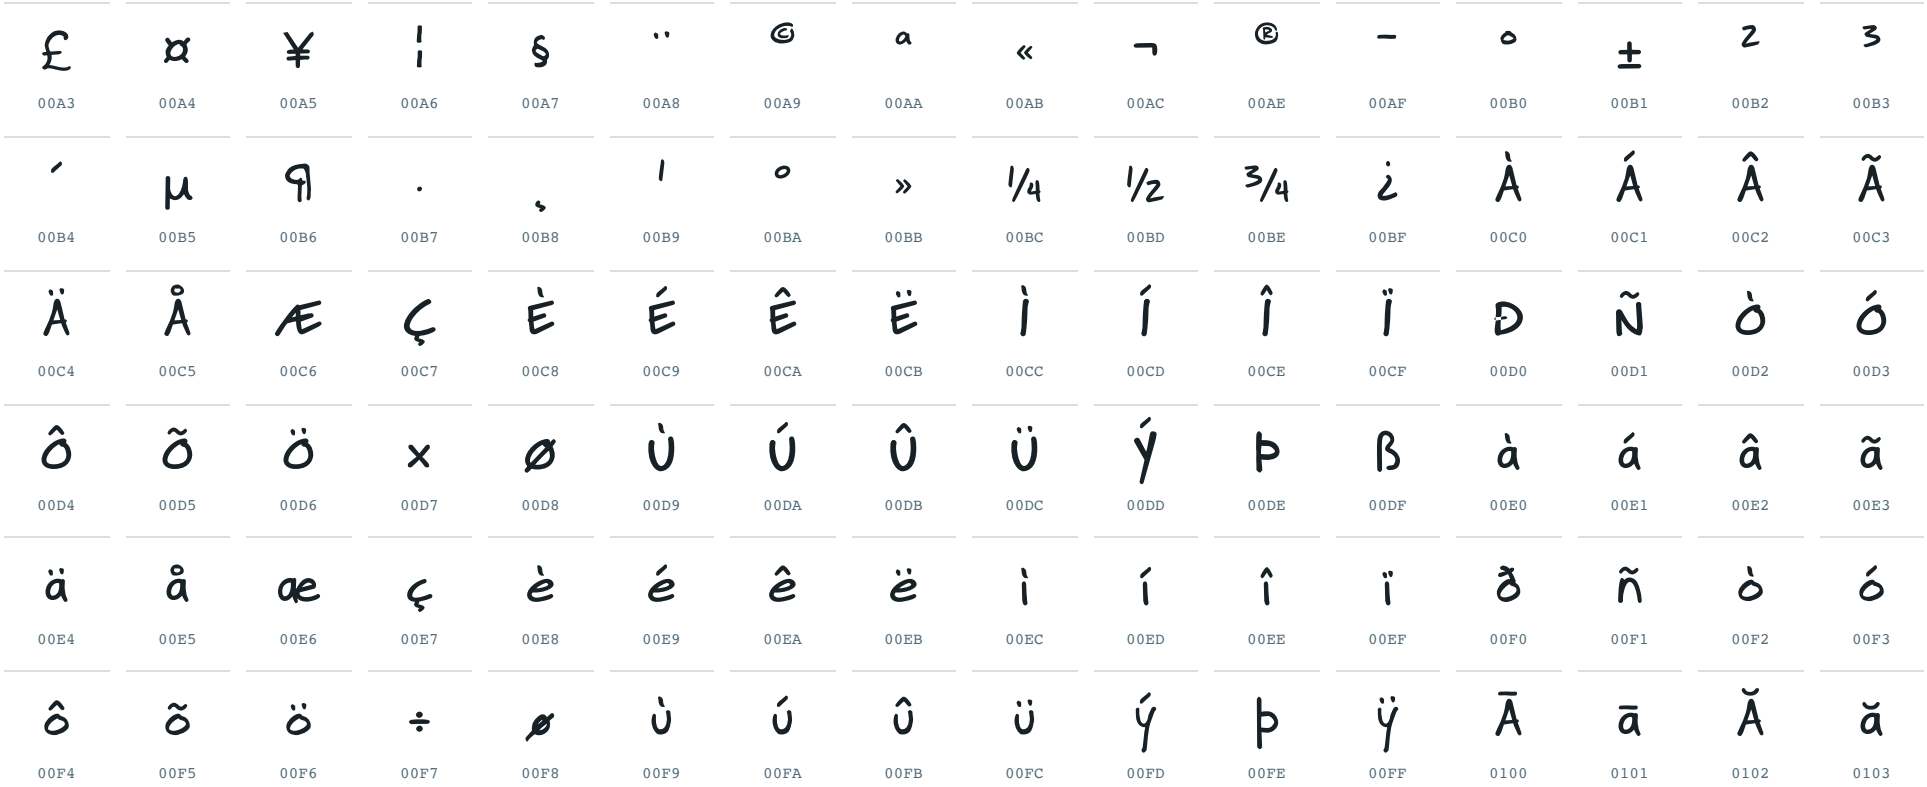
545 encoded codepoints / 1803 glyphs per style / Regular



Combining marks are shown on o. Controls, spacing characters and format characters are omitted from this visual board.

24 Encoded repertoire 2/6

545 encoded codepoints / 1803 glyphs per style / Regular



Combining marks are shown on o. Controls, spacing characters and format characters are omitted from this visual board.

AP.CX Fair Font License / proprietary

Free evaluation trial: ap.cx/fonts/leftynote/download. Light, Regular, Bold and variable OTF/WOFF2 include A–Z, a–z, figures and selected punctuation. Accents and most symbols are excluded.

Trial files are for evaluation, layout tests, mockups and presentations, not final production or public/client-deliverable use. Purchases include all three full static weights and the variable font, delivered separately through Polar.

Known limits

Mathematical sign widths are intentionally proportional. No OpenType MATH layout table.

Preview & Print embedding (fsType 4) is retained; editable-document acceptance remains pending.

Application support beyond recorded checks is not certified.

Install the static family or CFF2 variable font as alternatives; broader application acceptance remains pending.

Public beta

Version 1.003 Beta 3 is available at 50% off until November 16, 2026. Broader application, editable-document and printing workflows remain unverified. The final version is included with beta purchases under the same license tier.
